CME-Dispuut

As you have probably all noticed, the new CME-Dispuut board is already fully functioning. We have taken over from the old board (Alexander, Jurgen and Matthieu) in the beginning of January. They have laid a good foundation on which we can build and further develop as a student association in the years to come.

We have started of by transforming the CME-Dispuut office to make it a more workable, but also more pleasant room to work in. From all the positive reactions we have gotten so far, this has turned out pretty good. Soon we will hang up more pictures on the wall and we will even bring some green to our office, to make it even better.

You can expect a lot from the CME-Dispuut this year. You can think of all kinds of activities, more on education and of course again a brilliant study tour abroad.

We will hope to see you drop by the CME office and share your ideas and opinions with us. If you are interested in organizing activities with us, we would be happy to hear that as well. And of course the coffee is still free!

Luuk Duijndam – Chairman
Matthijs Kluis – Secretary
Menno van Oeveren – Treasurer
Sandra Brouwer – Education

Education

Update curriculum

There are some changes upfront regarding the elective courses CME students can follow. In the Teaching and Examination Regulations and the Implementation Regulations of 2010-2011 these changes will be described. Once these regulations enter, the changes are official. Students who already signed up for CME can finish the curriculum they started with but can also choose electives from this list. For more information the list of new elective courses is available at 3.53.

Course evaluations

The CME-Dispuut is always critical towards courses. In order to improve courses (or know that the courses are very useful and good) we need the feedback of students. If you have some recommendations, complaints, or suggestions about a course please send an e-mail to info@cmedispuut.nl or tell them to Sandra.

The ice-skate clinic of February 18th

On February the 18th, the CME-Dispuut was invited by CFE for an ice-skate clinic in De Uithof in The Hague. CFE is the sponsor of a Dutch ice-skate team (1nP - Engenius) and they arranged three members of their team to give the clinic. Before the clinic started we had two presentations including a good lunch. The first presentation was about the company CFE by Fred van Dam. The second was about how life as a top sportsman in combination with a study or job is, Sanne Delfgou, Rigard van Klooster and Rosa Pater gave this presentation as a member of team 1nP - Engenius.

After that it was time for the real ice-skating, so we went to the rent shop to rent some ice-skates! And finally to the skate rink, where we were split-up in three groups and practiced our ice-skate skills. After a hour of practicing everyone participated in a relay game. And as a reward for the hard skating, we had a little drink.

As is visible in the picture, we had a great day and we want to thanks Michiel Wienese and CFE for organizing the clinic!
