### Lecture by AT Osborne

**AT Osborne** is a multidisciplinary office with 150 experts. Together, they provide all imaginable services, from project and process management to expertise with respect to engineering, finances, risks, the environment, alliances and legal issues.

On Thursday **September 23<sup>rd</sup>** there will be an interesting lecture given by AT Osborne. This lecture will focus on two main courses given this period, which are the following:

Legal and Governance: Tendering in urban development. What has to be tendered and how is the process?

Financial Engineering: Real options in infrastructure projects. How can flexibility be used to deal with the uncertainty and what is it worth?

This is an interesting opportunity to see examples of the literature being used during real projects.

This lecture starts at **15.45** in room **CT-3.98**.

Afterwards there will be a free drink in PSOR for all attending students.

## CME soccer team

Monday September 13<sup>th</sup>, the CME soccer team had their first match. The match started with two competitive teams, but after ten minutes CME Dispuut took the upper hand. By a perfect cross pass given by Luuk, Vyron scored the first goal for the CME Dispuut.

After some terrifying moments, Cyriel made the 2-1 by a free kick. In order to finish it, we needed a third goal. Although we missed a lot of changes, Vyron released us and scored the 3-0 and the first victory of the CME Dispuut was born.

Next Monday (September 20<sup>th</sup>) the CME Dispuut will play its second match.

Do you want to join the CME soccer team, send an email to [info@cmedispuut.nl](mailto:info@cmedispuut.nl) or come by at the CME office (room 3.53).

We are still looking for a shirt sponsor. Do you want to have your company name on the CME soccer shirt and have +/- 140 students see your company name? Send an email to [info@cmedispuut.nl](mailto:info@cmedispuut.nl).

## Lecture by HALCROW

On Thursday **October 7<sup>th</sup>**, **HALCROW** will visit the faculty of Civil Engineering. HALCROW is a company with its origin in the United Kingdom and is now trying to bring their expertise to the Netherlands.

This visit is combined with the course Forms of Collaboration and the visit will start with a guest lecture. After the lunch there is an opportunity for all CME students to join the presentation by HALCROW. This could be very interesting because they have promising **internships abroad**.

The presentation will start at **13.45** in room **CT-2.62**.
